

aspects of the patent granting process. Since his appointment to Commissioner, he has represented the United States in a number of international negotiations involving intellectual property rights, and testified before Congress on a variety of patent issues and USPTO operations. He was also the Acting Under Secretary of Commerce for Intellectual Property and Acting Director of the USPTO from January to December 2001.

I am honored to have this opportunity to publicly commend a dedicated public servant on the occasion of his retirement. Nicholas Godici embodies the excellence of our public servants, and I wish him all the best in his future endeavors.

CELEBRATING EARTH DAY—SENATOR GAYLORD NELSON'S LEGACY

HON. DAVID R. OBEY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 21, 2005

Mr. OBEY. Mr. Speaker, Earth Day is a great day to call attention to the many environmental public health challenges that face everyone on the planet. Established by Wisconsin's own Senator Gaylord Nelson on April 22, 1970, it stands as an annual reminder that as human beings we should recommit ourselves to his vision of a world where we demonstrate a mutual respect for one another by not "fouling the nest" and preserving the fragile planet we share. I submit for inclusion in the RECORD this statement from Senator Nelson on the occasion of the 35th anniversary of Earth Day:

EARTH DAY 2005—A WAKE UP CALL

(By Former Senator Gaylord Nelson—
Founder of Earth Day)

The 35th anniversary of Earth Day is a sobering occasion. On previous anniversaries we have hailed this "new awakening" as millions around the world suddenly rose up and pledged their support for a new campaign to save the natural environment.

In 1993 American Heritage magazine called Earth Day "one of the most remarkable happenings in the history of democracy." There has been progress, of course, particularly in public awareness of the critical role environment plays in our lives and in the education and training of new environmental leaders. Environment has become a major political issue. The public is prepared to support those measures necessary to forge a sustainable society, if the President and the Congress have the vision to lead us to that goal.

Unfortunately, the President and the Congress have not stepped up to the challenge of providing national and world leadership on the environmental crisis.

In fact, on some key issues, they are actually resisting or reversing progress made in the past 30 to 40 years. And without strong, sustained leadership from the President and Congress the urgent challenge to protect the environment and create a sustainable society cannot succeed. Theodore Roosevelt made conservation a top priority for the Republican party, and many members of his party carried that torch over the years. Recently, however, the GOP leadership has abandoned this cause. There are many serious environmental problems confronting us. But two current environmental issues dramatize this failure of leadership—energy conservation, and population control. Both are critical to the sustainability of our society.

In each case, there is not only a lack of wise national leadership but an apparent determination to turn back the clock. The surrender to special interests on these two issues makes a mockery of any claim to environmental awareness.

Egged on by the President, the Senate on March 16 sneaked into the annual budget resolution a scheme to allow drilling for oil in the pristine Arctic National Wildlife Refuge, protected in 1960 at the urging of great environmentalists such as Sigurd Olson, Justice William O. Douglas, and Wilderness Act author Howard Zahniser. The bill was signed by President Eisenhower.

This is not just a sabotage of environmental policy. It also undermines any hope for a wise energy policy. When all the evidence calls for bold steps to conserve energy and develop alternative sources, this cynical action implies that we can burn all the oil we want and just move on to the next untapped source, no matter where it might be.

We are told it may be 10 years before a very modest amount of oil could be produced from this pristine refuge. And what would it cost in real terms?

For the President to call for oil drilling in the Arctic Wildlife Refuge is like burning the furniture in the White House to keep the First Family comfortable.

Equally critical is the failure of the President and Congress to confront the issue of population control, in our own rapidly growing country and the rest of the world.

A "Rockefeller Report" in 1972, issued by the President's commission on population growth, urged the U.S. to move vigorously to stabilize our population at about 200 million as rapidly as possible. Since then our population has ballooned to 282 million, and is expected to reach 500 million between 2060 and 2070. We are heading into a century in which we will double and triple our population in a short time.

World-wide population projections are equally chilling. A series of international conferences have called for bold action to control population growth.

Yet the United States in recent years has become an aggressive opponent of family planning programs in other countries, and we are now facing efforts by some "new conservatives" to impose similar restrictions at home.

On previous Earth Days we have offered a solution: The President should set the standard by delivering a message to the Congress on the state of the environment, citing priorities that need to be addressed. Congress then should hold hearings on these issues. This would produce a "national dialogue" on the sustainability of our environment, and provide a roadmap to the future.

Without Presidential leadership and Congressional hearings, we cannot claim to be taking seriously the most compelling threats facing our society.

On environmental issues, our intelligence is reliable. Our scientists have the facts, if we will only listen. It is a "slam dunk" that we cannot continue on our present course. But without Presidential and Congressional leadership, even an enlightened public cannot cope with the greatest challenge of our time.—Gaylord Nelson, Washington, DC April, 2005.

HONORING THE CONTRIBUTIONS OF BARBARA HANSON NELLERMÖE

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 21, 2005

Mr. CUELLAR. Mr. Speaker, I rise to recognize Forty-fifth District Court Judge Barbara

Hanson Nellermoe for her commitment to the Bexar County Community.

For ten years, Judge Nellermoe has been representing clients in environmental, banking, securities, medical malpractice, and other types of commercial litigation. Helping others in times of need is Judge Hanson's top priority and she has done a great job of it for the people in her community. Rated A-V by the Martindale-Hubbell national legal directory, she has received such awards as the President's Award for Outstanding Service to the San Antonio Bar Association and the Belva Lockwood Outstanding Lawyer Award from the Bexar County Women's Bar Association.

In addition to her total commitment to her current position as Forty-fifth District Court Judge, Barbara also serves on the board of directors for the College of the State Bar of Texas and is the Editor in Chief of San Antonio Lawyer magazine.

Judge Nellermoe is an irreplaceable citizen of Bexar County. I am pleased to have the chance to honor her here today.

ARMENIAN GENOCIDE 90TH ANNIVERSARY

HON. ERIC CANTOR

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 21, 2005

Mr. CANTOR. Mr. Speaker, April 24th marks the anniversary of one of the most horrible tragedies of the 20th century, the genocide that was committed against the Armenian people by the Ottoman Empire. Over one million people were forced into exile and lost their lives during this horrible tragedy that befell the Armenian people in 1915.

The United States is proud of the strong ties we share with Armenia. Over the years many Armenian-Americans have helped to enrich and enhance our Nation's character; we have remained committed to peace in the region and will continue to help Armenia with its economic prosperity and strengthening of its democracy.

On this day of remembrance I send my solemn wishes to Armenians everywhere. I look forward to our nations working toward a future of peace, prosperity, and continued freedom.

CONGRATULATING THE ONCOLOGY NURSING SOCIETY ON THEIR 30TH ANNIVERSARY

HON. CHRISTOPHER SHAYS

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 21, 2005

Mr. SHAYS. Mr. Speaker, I rise today to pay tribute to oncology nurses. Oncology nurses play an important and essential role in providing quality cancer care. These nurses are principally involved in the administration and monitoring of chemotherapy and the associated side-effects patients experience. As anyone ever treated for cancer will tell you, oncology nurses are intelligent, well-trained, highly skilled, kind-hearted angels who provide quality clinical, psychosocial and supportive care to patients and their families. In short, they are integral to our nation's cancer care delivery system.

I congratulate the Oncology Nursing Society (ONS) on its 30th Anniversary. ONS is the largest organization of oncology health professionals in the world, with more than 31,000 registered nurses and other health care professionals. Since 1975, ONS has been dedicated to excellence in patient care, teaching, research, administration and education in the field of oncology. The Society's mission is to promote excellence in oncology nursing and quality cancer care. To that end, ONS honors and maintains nursing's historical and essential commitment to advocate for the public good by providing nurses and healthcare professionals with access to the highest quality educational programs, cancer-care resources, research opportunities and networks for peer support. ONS has two chapters in my home state of Connecticut, which help oncology nurses provide high quality cancer care to patients and their families in our state.

Cancer is a complex, multifaceted and chronic disease, and people with cancer are best served by a multidisciplinary health care team specialized in oncology care, including nurses who are certified in that specialty. Each year in the United States, approximately 1.37 million people are diagnosed with cancer, another 570,000 lose their battles with this terrible disease, and more than 8 million Americans count themselves among a growing community known as cancer survivors. Every day, oncology nurses see the pain and suffering caused by cancer and understand the physical, emotional, and financial challenges that people with cancer face throughout their diagnosis and treatment.

Over the last ten years, the setting where treatment for cancer is provided has changed dramatically. An estimated 80 percent of all cancer patients receive care in community settings, including cancer centers, physicians' offices, and hospital outpatient departments. Treatment regimens are as complex, if not more so, than regimens given in the inpatient setting a few short years ago. Oncology nurses are involved in the care of a cancer patient from the beginning through the end of treatment, and they are the front-line providers of care by administering chemotherapy, managing patient therapies and side-effects, working with insurance companies to ensure that patients receive the appropriate treatment, provide counseling to patients and family members, in addition to many other daily acts on behalf of cancer patients.

I appreciate oncology nurses' dedication to our nation's cancer patients, and commend the Oncology Nursing Society for all of its efforts and leadership over the last 30 years. They have contributed immensely to the quality and accessibility of care for all cancer patients and their families, and I urge my colleagues to support them in their important endeavors.

DR. PATRICIA SENN BREIVIK HONORED FOR HER ESTEEMED SERVICE AS DEAN OF THE UNIVERSITY LIBRARY AT SAN JOSE STATE UNIVERSITY

HON. ZOE LOFGREN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 21, 2005

Ms. ZOE LOFGREN of California. Mr. Speaker, I rise to recognize the achievements

of Dr. Patricia Senn Breivik as she retires from her position as Dean of the University Library at San Jose State University. Dr. Breivik's was a leader of the collaboration between the San Jose Public Library and the San Jose State University—a merged library that opened in August 2003. As a result, the Dr. Martin Luther King, Jr. Library encompasses the spirit of Silicon Valley as an innovative model serving as the area's 21st century information hub.

It took 6 years to propose, plan, and execute an idea that evolved during a breakfast meeting between former San Jose Mayor Susan Hammer and former San Jose State University president Robert Caret. After Dr. Breivik inherited the idea, she went to work with the director of the San Jose Public Library to establish a center of exploration and learning that would serve the University's 27,000 students, 1,153 faculty and a busy city of 924,950 people.

During the time of the planning of this jewel, both libraries faced a steady erosion of support as a result of the passage of Proposition 13. In addition to shrinking coffers, the libraries also faced the challenge of having to remain open substantially more hours than either libraries had previously offered because of its increased patronage. Now, not only is the King Library co-owned and co-managed, it has one online system and one website. Library materials are accessible to all users and the staffs work together in technical services, reference, circulation and Information Technology support.

Within a year of its opening, the King Library garnered a number of prestigious awards. Among them is the 2004 Gale/Library Journal "Library of the Year" Award that was presented for innovative collaboration and acknowledged the cooperative planning between university and city officials in risk-taking and vision.

The King Library is one of the precious jewels of San Jose's cultural "necklace" of treasured museums, theaters, and historical landmarks. It serves as a place for friends to meet for a cup of coffee and discuss the latest news; a study hall for nerve-wracked students; and a place of learning, sharing and, of course, collaboration between people of differing education and income levels, ethnicity, language, culture and beliefs. Special thanks go to Dr. Breivik for her outstanding work.

HONORING THE CONTRIBUTION OF WEBB COUNTY DISTRICT CLERK MANUEL GUTIERREZ

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 21, 2005

Mr. CUELLAR. Mr. Speaker, I rise today to honor the contributions and achievements of District Clerk Manuel Gutierrez, who has served the citizens of Webb County for 24 years.

Manuel Gutierrez is not only a model of professional success, but a model citizen. He has been reelected by the voters since he began his service; in fact, he has the distinction of currently being the longest-serving elected official in Webb County.

He brings to his work the passion and experience he has gained over the years. He

strives to improve himself through continuing education and professional enrichment. These efforts are evident through his superlative work and the trust the citizens put in him.

During his tenure, he has overseen improvements to the operations of his office that resulted in increased efficiency in a number of areas, most notably the local judicial process. The community is truly appreciative of innovators who streamline functions that save the taxpayers money, and he proves this time and again.

Manuel's wife, Esther, is employed with the Laredo Independent School District, and they form a couple who are dedicated to the betterment of their community. He has three children, Monica, Manuel Jr., and Miguel who doubtlessly are very proud of their parents.

Mr. Speaker, I am proud to speak in honor of Manuel Gutierrez, a true citizen who deserves the praise and gratitude of his community.

KENSINGTON COMMUNITY STORE SUCCESS STORY

HON. JERRY MORAN

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 21, 2005

Mr. MORAN of Kansas. Mr. Speaker, I rise today to recognize the selfless efforts of the citizens of Kensington, Kansas in their work to re-open their community's grocery store.

A little more than 19 months ago, this community's only grocery store closed. This town of 511 people immediately felt the loss of the store. Residents no longer had local access to basic necessities such as dry goods and fresh cuts of meat. The closest grocery store was in the county seat of Smith Center—nearly 15 miles away. I know that most Members of Congress do not have to concern themselves with whether their communities have a grocery store. However, for many of the communities in my district, keeping the local grocery store open is a constant struggle.

The citizens of Kensington decided to take action. Following a community meeting, board members were elected to form the Kensington Community Store, Incorporated. This organization was created to oversee the construction and development of a non-profit community grocery store with noon deli.

Since that time, support for the project has been impressive and inspiring: the Kensington city council committed to construct a 60' x 75' steel building; several lots of ground were donated for building construction; community "work nights" were held to ready the store for opening; Vo-tech classes at the local high school constructed metal and wood shelves; the local Lions Club assisted with interior construction of the store.

All totaled, more than \$130,000 has been raised to support the project. Donations of all sizes have come from more than 250 individuals, businesses, clubs and foundations. The final piece of the puzzle fell into place when an agreement was reached to share wholesale supply delivery dates with a grocery store in a community 27 miles down the road. The arrangement allows the store in Kensington to sell merchandise at competitive prices.

Thanks to a team effort, the Kensington Community Store is now a reality. According
